

## **Liliana Lubińska**

**(1904–1990)**

**On 19 November died Professor Liliana Lubińska, the pioneer of investigations on axoplasma flow and nerve regeneration. She has been working in the Nencki Institute since 1933, in 1946 she founded together with Jerzy Konorski the Department of Neurophysiology in the Institute. In years 1962–1967 she was a member of the editorial board of this journal.**
